7. Risks

- Vendor concentration: three vendors hold 56% of spend.
- 23 invoices worth INR 1,847,989 (25% of billed value) are overdue; 15 are more than 90 days late.
- 1 invoice(s) are unusually large for their category: INV-2026-0081.
- Possible duplicate billing: INV-2026-0061, INV-2026-0101 share vendor and amount.

8. Recommendations

1. Review contracts with the top vendors and benchmark pricing against alternatives to reduce concentration risk.
2. Clear or formally dispute invoices overdue by 90+ days to avoid late fees and supplier-relationship damage.
3. Tighten the payment run for SwiftLine Logistics (paid late on 80% of invoices).
4. Negotiate early-payment discounts; only a small share of spend currently earns one.
5. Verify the flagged duplicate and unusually high invoices before payment.

Method: all figures are computed directly from the invoice data with pandas. Anomalies use a per-category z-score above 2.5 and same-vendor same-amount matching.
